Argonne National Laboratory invites applicants for a staff position in the Condensed Matter Theory Group of the Materials Science Division. Current interests in the group are in the areas of strongly correlated electron materials and mesoscopics. The Division as well wishes to grow programs in computational materials science, science of synthesis, x-ray sciences, and energy storage. A full description of Divisional programs can be found at www.msd.anl.gov

The successful candidate should have a Ph.D. in a relevant area and some postdoctoral experience. Although we are looking for applicants at the Assistant Scientist level, exceptional senior candidates may be considered as well. For full consideration, please apply by Jan. 31, 2013. Interested candidates should send a curriculum vitae, list of publications, professional references, and statement of research interests to Dr. Michael Norman, Director, Materials Science Division, preferably by e-mail (norman@anl.gov), otherwise by regular mail (MSD-223, Argonne National Lab, Argonne, IL 60439). Please use the subject line “CMT Search” in any e-mail correspondence.

Argonne National Laboratory is a multi-program laboratory managed by UChicago Argonne, LLC for the U.S. Department of Energy’s Office of Science. We are an equal opportunity employer and value diversity in our workforce. Argonne’s site is located about 25 miles southwest of Chicago on a beautiful 1500 acre campus. For additional information, please refer to Argonne’s Home Page at www.anl.gov.
