

Postdoctoral Research Position
Theory of novel superconductors
U. Florida -- Gainesville

A postdoctoral research fellowship in the Hirschfeld group in the theory of novel superconductors is available beginning spring or summer 2018. Some experience with electronic structure theory, as well as superconductivity theory, is desirable but not required. For full consideration, candidates should email a c.v., brief statement of research interests and three letters of reference before December 15, 2017 to mcolson@ufl.edu, (Ms. Marcia Colson, Condensed Matter Theory, U. Florida Physics).
