Faculty Position in Theoretical Condensed Matter Physics  
University of Minnesota

The School of Physics and Astronomy at the University of Minnesota, Twin Cities invites applications for a tenure track Assistant Professor position in the area of Theoretical Condensed Matter Physics. Applicants are expected to hold a Ph.D. in Physics, and additional postdoctoral experience is preferred. Candidates must demonstrate the potential to conduct a vigorous and significant research program as evidenced by their publication record and supporting letters from recognized leaders in the field. The ability to teach Physics effectively at both the graduate and undergraduate levels is required. Condensed Matter Physics is a major research area at the University of Minnesota, currently involving 14 faculty members. The starting date could be as early as September 2012. Candidates for this position must go to https://employment.umn.edu/applicants/Central?quickFind=97693 and submit an application online. Application materials must include a letter of intent, a current C.V. including a list of publications, a list of at least three references including complete addresses and contact information, and statements of teaching and research interests. Signed letters of reference on official letterhead may be sent directly to jjmurphy@physics.umn.edu as PDF files. Alternatively, letters of reference may be sent to:

Professor Ronald Poling  
School of Physics and Astronomy  
University of Minnesota  
116 Church St. SE  
Minneapolis, MN 55455

Review of candidates will begin immediately, but applications will continue to be accepted until December 9, 2011. The University of Minnesota is an equal opportunity educator and employer.
