Faculty Position in Physics - Condensed Matter Theory (pni131024)

The University of Texas at Dallas, a rapidly growing university in the DFW Metroplex, invites applications for a faculty position in condensed matter theory in the Department of Physics. A successful candidate will have a PhD in Physics or equivalent and a record of research accomplishments reflecting a broad range of interests in theoretical condensed matter physics. While this position is anticipated to be at the assistant professor level, individuals with particularly strong credentials may be considered for other ranks. A strong commitment to teaching, at both the undergraduate and advanced graduate levels, is essential. We seek a person with the potential to attract external research funding and the ability to develop collaborative interactions with other theorists and experimentalists, both within the **Department of Physics** and across the campus.

The University of Texas at Dallas, located just north of Dallas in Richardson, Texas, now has an enrollment of more than 20,000 students. It has been designated by the State of Texas as one of the seven emerging universities to be encouraged to become a major research campus. UTD maintains close ties with the nearby University of Texas Southwestern Medical Center and major corporate entities in the Metroplex.

Review of applications will begin as soon as possible and continue until the position is filled. Indication of gender and ethnicity for affirmative action statistical purposes is requested as part of the application. Questions can be addressed to the chair of the search committee, Prof. Chuanwei Zhang at chuanwei.zhang@utdallas.edu or 972-883-4520.

Individuals interested in the position should submit current curriculum vitae with a list of publications, statements of research and teaching interests, and the names and contact information of at least three professional references via the **ONLINE APPLICATION FORM** available below.
