Theoretical Condensed Matter Physics Research Associate

The Department of Physics at the University of Virginia invites applications for a postdoctoral Research Associate to begin in Spring 2013. The successful candidate will work with Prof. Eugene Kolomeisky and work in the area of theoretical condensed matter physics with possible focus on fluctuation-induced phenomena in condensed matter and atomic physics settings.

This is a one year non-renewable appointment.

The completion of a Ph.D. degree in theoretical physics is required by the appointment start date. Experience in condensed matter, atomic physics, Casimir physics or mathematical physics is a plus.

To apply, please submit a candidate profile on-line and attach a cover letter, curriculum vitae, and a brief statement of research interests, together with the contact information for three professional references through Jobs@UVA (https://jobs.virginia.edu); search on posting number 0610959.

Review of applications will begin on November 19, 2012; however, the position will remain open until filled.

Questions regarding this position should be directed to:

Prof. Eugene Kolomeisky
