Faculty Position in Theoretical Condensed Matter Physics
Rice University

The Department of Physics and Astronomy at Rice University invites applications for a tenure-track faculty position in theoretical condensed matter physics. This search is expected to be at the Assistant Professor level (PhD required), but consideration of an appointment at a more senior level may be made in exceptional cases. This position has an emphasis on fundamental theory, and will complement and extend existing theoretical and experimental activities in condensed matter physics (for information on these, see http://physics.rice.edu/). Applicants should send a dossier that includes a curriculum vitae, statements of research and teaching interests, a list of publications, and two or three selected reprints, and arrange for at least three letters of recommendation to be sent to: Prof. Q. Si, Chair, Condensed Matter Search Committee, Dept. of Physics and Astronomy – MS 61, Rice University, 6100 Main Street, Houston, TX 77005, or by email to vcall@rice.edu with subject line “CMT Search.” Applications will be accepted until the position is filled, but only those received by December 1, 2011 will be assured full consideration. The appointment is expected to start in July 2012. Rice University is an affirmative action/equal opportunity employer; women and underrepresented minorities are strongly encouraged to apply.
