

=====  
=====  
Los Alamos National Laboratory is anticipating an opening for a postdoctoral research associate position in Theoretical Condensed Matter Physics in the areas of correlated electron systems, high- temperature superconductivity, supersolids and quantum glasses.

We prefer to fill the position beginning January of 2009 or earlier.

A solid foundation in condensed matter theory is a requirement. Expertise in electronic structure theory is desirable, but is not a requirement. We would be grateful if you could recommend and pass this information along to any suitable candidates. Candidates shall send an electronic application, including c.v., publication list, and 3 letters of reference to Alexander Balatsky([avb@lanl.gov](mailto:avb@lanl.gov) <mailto:avb@lanl.gov> <mailto:avb@lanl.gov>) or Matthias Graf ([graf@lanl.gov](mailto:graf@lanl.gov) <mailto:graf@lanl.gov> <mailto:graf@lanl.gov>) before Dec 1 2008. Web page: <http://theory.lanl.gov> <http://theory.lanl.gov/>.
