The Faculty of Physics at the Ludwig-Maximilians-University Munich and the Cluster of Excellence “Nanosystems Initiative Munich (NIM)” invite applications for a

**Junior professor position (W 1) for 3 years in Theoretical Physics:**
**Nonequilibrium Phenomena in Nanosystems**

In case of a positive evaluation the position can be extended for further 3 years.

Possible research areas are numerical methods, correlated electron systems, phase coherent transport in low-dimensional systems, and ultracold atomic gases. The successful applicant will be expected to have demonstrated excellence in research through completed PhD studies with outstanding results, to have high pedagogical skills, to actively participate in the teaching program of the Department of Physics, and to contribute to new research and teaching initiatives of the department.

The advancement of woman in science is an integral part of the university’s policy. Women, therefore, are especially encouraged to apply.

Persons with disabilities will be given preference over other applicants with comparable qualifications.

Applications (including CV with photo, list of publications, description of research accomplishments and interests) are to be sent before June 18, 2007 to: Dekan der Fakultät für Physik der Ludwig-Maximilians-Universität München, Schellingstraße 4, 80799 München, Germany.
